

SUMMARY

To obtain a challenging position in a reputed organization where I can utilize my skills in C, Java, Python, HTML, CSS, and JavaScript, along with my strengths in full-stack development, problem-solving, leadership, and communication, to design and implement efficient, user-friendly, and innovative software solutions while advancing my professional growth. Seeking an opportunity to apply technical knowledge, problem-solving, and teamwork skills to real-world software challenges.

EDUCATION

CMR Institute Of Technology

B-Tech Computer Science and Engineering
2023-2027(Present)
CGPA: 7.8(Till 4th Semester)

Sri KrishnaDevaraya Junior College

2021-2023
CGPA:9.7

SKILLS

- Programming Languages: Java, Python, C
- Web Technologies : HTML , CSS , JavaScript
- Database Management : MySQL, MongoDB
- Core Competencies : Data Structures and Algorithms(Java)
- Tools & Platforms : Git ,GitHub,Eclipse

CERTIFICATIONS

- Java Development Intern - Cognifyz Technologies
- AI Foundation and Advanced - Hexart
- Google Developer Groups On Campus Participation
- Python - IBM

PROJECTS & EXPERIENCE

CROP CART- Project

(Mar-2025)

Crop Cart – A web-based platform designed to empower farmers by connecting them directly with consumers, eliminating the need for middlemen. The system ensures fair pricing, transparency, and higher profits for farmers while providing consumers with fresh and affordable produce.

- Developed to promote a sustainable and balanced agricultural marketplace.
- Provides a user-friendly interface for farmers to list and manage their crops easily.
- Integrates secure payment options and real-time crop availability updates.

Healthy Diet for Gym Member - Project (Apr-2024)

- Healthy Diet and Fitness Awareness – A project focused on promoting the importance of nutrition in achieving fitness goals and improving workout performance.
- Highlighted the significance of maintaining a balanced diet alongside regular exercise.
- Researched and analyzed dietary needs for different workout goals such as strength training, endurance, and weight loss.
- Provided insights on pre- and post-workout meals to enhance energy levels, muscle recovery, and fat burning.
- Created informative content to guide individuals in aligning their nutrition with their fitness routines.

Java Development - Intern

Java Development Intern -Cognifyz Technologies | 2025 -

- Gained hands-on experience in core Java and object-oriented programming.
- Worked on developing small-scale Java projects and backend modules.
- Learned about data structures, algorithms, and basic database connectivity using JDBC.
- Collaborated with team members to debug, test, and improve code performance.
- Enhanced understanding of software development lifecycle and project workflow.
- Strengthened problem-solving, logical thinking, and teamwork abilities
